Powerful yet simple...

Road Haulage Management System

Manage your Haulage with ease ...

Our Haulage solution has been developed to manage all areas of road haulage with ease. This is the latest innovation from Vixsoft Systems Ltd, the Company with 25 years history of successful Freight Management Software delivery.

Having researched and gained an in-depth understanding of the challenges faced by the Road Transport Industry, this product has been developed with the help of the Transport Industry leaders to address those demands in an affordable and easy-to-use format that returns on investment by reducing administration costs through improved efficiency.

All your documents in one place...

Our Road Haulage Management System incorporates unique features not found within other freight management software, including its document storage facility allowing paperwork relating to specific jobs to be electronically filed and recovered easily with minimum time and effort.

This functionality is extended with additional Vixsoft plug-ins allowing users to not only attach documents directly from within Microsoft Outlook 2007 and above but have the ability for the system to receive bulk scanned documents produced by the system e.g. PODs with signatures and automatically attach them to the original job.

Innovative Features...

Our system not only helps you maximise profits, the software's powerful yet simple user interface provides the ultimate tool for planning even the most complex jobs and it's integrated functionality facilitates search, tracking and rescheduling on the fly with ease.
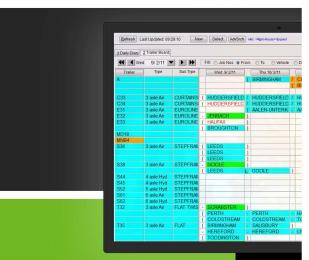

Road Haulage Management System

+ Quick and easy-to-use - Incorporates a simple user interface with logical navigation and flow of processes.

+ Routing and scheduling - Powerful screens that give you 14 days visibility.

+ Large load support - Allow trailer modules to be dynamically allocated whilst checking for any clashes in it's usage.

+ 3rd party vehicles and trailers - Easily maintain your vehicles and trailers as well as 3rd party allowing easy costings.

+ Job costing - Monitor quoted and actual job costing to improve Cash Flow.

+ Reporting - Analysis costs per trailer or truck over a period of time.

+ Import cargo - Easily import the cargo list from a spreadsheet.

+ Daily diary - Quickly view daily jobs with colour coded events.

+ Powerful integrated functionality - Single data entries populate multiple forms. Create templates for fast efficient entry of replicated jobs.

Sound Investment...

Other unique features, not found in comparative packages, including an innovative trailer board which enables both single and multi-leg planning and tracking of vehicle fleets on a single screen also offering a wide choice of search and view options. Our system also offers unprecedented flexibility; run as a standalone package or in conjunction with other products in the Vixsoft range to provide seamless integration and visibility into all areas of your business.
